

The 80:20 Rule:

Let's treat patients **100%**

How?

Let's talk about how nurses can assess and address SDOH.

We need nurses involved in **care coordination and transition management** from all specialties, facilities, demographics, and parts of WA to participate in our focus groups.

As a thank you for giving us about **75 minutes of your time**, you get more than just a chance to inform health system transformation – you'll get a **\$20 Target gift card!**

You'll watch a short video and then discuss a few questions with the rest of the group. What we learn will help develop tools and infrastructure to **improve patient health**.

Your answers will be anonymized – at no time will your responses be linked with your identity. You may withdraw your participation at any time.

Better data means better health | Reach out and represent!

Please RSVP to set up or be part of a group: rebeccap@wcnursing.org
