**NATIONAL COUNCIL OF
STATE BOARDS OF NURSING**

YOU CAN HELP HEAL FLORIDA'S HEALTH CARE CRISIS

Florida's Health Care Crisis

Everyone deserves access to quality health care. But in Florida, health care is in a state of crisis:

- Ranked 41st in the nation for health care access and affordability
- 62% of low-income children don't have a doctor
- Highest Medicare readmissions in the country

You Are The Solution

Fortunately, there's a simple way to make quality care more accessible: Advanced Practice Registered Nurses (APRNs). These Nurses have the advanced education and training to fill this void in our health care system.

But in this state they're being held back. Together, we can fight for their rights and help alleviate this health care crisis—and it only takes a minute of your time.

60 Seconds Can Change Everything

State lawmakers in the House and Senate will soon vote on two bills that support APRNs: HB 821 and SB 972. And, it's important that they hear from you. Fortunately, we've made it quick and easy.

- Click on the button below to go to our website
- Once there, click on "take action now" to send a **prewritten** note to state lawmakers
- Sign up for our emails to get the latest updates

Thank you for supporting APRNs. You are helping improve the lives of millions of people.
