AUSTIN SEXUAL HEALTH + WELLNESS

ASHwell is here to help

ASHwell is a sex-positive and lifestyle affirming medical clinic and social services center for the LGBTQ community and beyond.

With little to no wait, you can receive PrEP medicine and STI testing completely FREE to you. PrEP is a single pill that, if taken daily, can prevent HIV transmission by up to 99%. It provides ease of mind and offers you a new level of control over your sexual health.

PEP is another medication that prevents HIV that you can start taking 72 hours after a possible exposure to HIV. PEP could be an option for you if you have any doubt that you have been exposed to HIV.

Whether you have health insurance or not, ASHwell has your back with free doctor's visits and lab tests. We are proud to provide quick and convenient appointments—we never put you on a wait list!

More than just PrEP

ASHwell offers a wide variety of FREE services including:

- * Hormone Replacement Therapy
- * HIV Treatment
- * Hepatitis C Treatment
- * Sexually Transmitted Infections (STI) testing and treatment
- * Important vaccinations for HPV and Hepatitis A & B
- * Housing assistance and case management (for people living with HIV)
- * Massage & acupuncture (for our PrEP, HIV, or Hep C patients)

We help you feel your best so that you can be your best. No matter what your sex life is like, we are here to stimulate your health!

Friendly staff to help you at every step

ASHwell supports the LGBTQ community of Central Texas and we are sensitive to the needs of our diverse set of patients. Our approach is grounded in treating our clients with dignity and respect in an environment free from stigma and judgment.
