

Blueprint for Success:

Building and Growing Your Home-Based Primary Care Practice

Friday, February 7–Saturday, February 8, 2020
Sheraton Crescent Hotel, Phoenix, Arizona

This two-day conference, a joint collaboration between the Home Centered Care Institute (HCCI) and the National Nurse Practitioner Entrepreneur Network (NNPEN), is designed for those who want to learn strategies for planning and operating a successful and sustainable home-based primary care practice! Nurse practitioners, other clinical providers, practice managers and operations staff will enhance their knowledge, competence, and performance on operating the business side of an Home-Based Primary Care (HBPC) practice. You'll leave this interactive workshop with information that you can immediately (and confidently) use as you start or build your practice.

Learning Objectives

Upon completion of this conference, learners will be able to:

- Discuss what it takes to be a successful HBPC provider.

- Evaluate your practice's unique value proposition... including who is the customer.
- Examine basic and advanced options for diagnostic, therapeutic, and operations technology to improve patient care, efficiency, and staff safety in HBPC.
- Describe documentation requirements to support E/M codes frequently used in HBPC and discuss opportunities beyond E/M codes.
- Discuss important practice, legal, and financial implications which should be considered surrounding the use of telehealth.
