

**October 20-22, 2020
Noon - 2 PM**

**BECOME THE
VOICE OF NURSING**

- **Have you ever thought it might be interesting to learn more about how to change public policy?**
- **Do you want to know how to analyze a policy issue and how to work with your state legislator?**

The **Minnesota Organization of Leaders in Nursing (MOLN)** is providing nurse leaders and students with the opportunity to take a deep dive into the legislative process. This three-day virtual event provides an opportunity to start, refresh, or reignite your passion for advocacy. All of this is presented in a safe and supportive environment with other nurses and healthcare providers who have similar interests.

PURPOSE: The purpose of the internship is to provide robust multimodal learning surrounding health care public policy advocacy.

LEARNING OBJECTIVES

The learner will be able to:

- Define the process used to enact a law at the state or federal level
- Differentiate between the role of an advocate and a lobbyist in influencing public policy
- Describe actions a citizen can take to effect change in the law making (legislative) process
- Cite three actions a nurse can take to advocate for change in health policy
- Cite three resources for remaining aware of current health policy initiatives

WHO SHOULD ATTEND?

The internship is open to MOLN members, non-members, and students enrolled in post-baccalaureate nursing and health care education programs.

REGISTRATION AND STUDENT DISCOUNTS:

Advance registration is required. The cost is \$60 for current MOLN members, \$40 for students currently enrolled in a nursing or healthcare program and \$75 for non-members. Register at MOLN.org.
