

Pediatric COVID-19 Vaccines: CDC's Recommendations for Pfizer BioNTech COVID-19 Vaccine Primary Series in Children 5–11 Years Old

Overview

The Centers for Disease Control and Prevention will provide an overview of its recommendations and clinical considerations for administering the Pfizer BioNTech COVID-19 vaccination primary series in children aged 5–11 years old.

If you are unable to attend the live COCA Call, the recording will be available for viewing on the [COCA Call webpage](#) a few hours after the live event ends.

The slide set will be available under Call Materials on the [COCA Call webpage](#).

Continuing Education will not be offered for this COCA Call.

Registration is not required.

Date: Thursday, November 4, 2021

Time: 2:00 pm - 3:00 pm (ET)

COCA Call Objectives

At the conclusion of the session, the participant will be able to accomplish the following—

1. Cite background information on the topic covered during the presentation.
2. Discuss CDC's role in the topic covered during the presentation.
3. Describe the topic's implications for clinicians.
4. Discuss concerns and/or issues related to preparedness for and/or response to urgent public health threats.
5. Promote health improvement, wellness, and disease prevention in cooperation with patients, communities, at-risk populations, and other members of an interprofessional team of healthcare providers.
