

June 16-19, Washington, DC

A Conference *for* APPs *by* APPs

We want to personally invite you to the first-ever conference created exclusively *for* Advanced Practice Providers (APPs) *by* APPs in movement disorders. After two years apart, this is your chance to gather in-person with your peers, to spark inspiration, to grow your knowledge, and to leave reinvigorated with a network of colleagues across the nation.

The APProviders™ Conference is the full day prior to ATMRD, an in-person, innovative movement disorders congress in the heart of Washington, D.C., where you'll be valued as an integrated member of the care team. You'll get hands-on experience with cutting edge therapeutics and interact with a rich lineup of faculty in robust discussions on the latest clinical research and case studies. The best part? **We offer scholarships covering hotel and congress registration to any APPs who want to apply.** We're excited to see you in D.C.!

Sherrie Gould, MSN, NP-C, and Kelly Papesh, MSN, DNP
APProviders™ Advisory Board Co-Leads

APP Scholarships Include:

- 4 nights at the Mandarin Oriental
- Full APProviders™ Conference & ATMRD Congress registration
- Food throughout the Congress

Register today at ATMRD.org!

What's In It for You

1. Connect and Collaborate: Be in the room with your peers from across the nation.
2. An exclusive reception for APPs.
3. Experience courses and breakout sessions designed exclusively for APPs by APPs.
4. Don't let cost be a barrier: scholarships are available to any APP who wants to apply.
5. Learn from renowned movement disorder specialists Fernando Pagan, MD, and Yasar Torres-Yaghi, MD.
6. It's unlike any other Congress: instead of the same old diagnostics, it focuses on innovative therapeutics.
7. Experience hands-on workshops designed just for you.
8. Deep-dive into the latest case studies and clinical research.
9. Earn up to 15 CME credits.
10. Get out and explore the heart of Washington, D.C., and enjoy 4 nights in a luxurious hotel.
11. Build your knowledge, build your career.
