
Louisiana Nurse Practitioner Foundation

The Louisiana Nurse Practitioner Foundation (LNPF) was created to serve as the leading source for advancing, supporting and promoting the roles of Nurse Practitioners in Louisiana.

LNPF is organized exclusively for charitable, educational, and scientific purposes. The goal of the Foundation is to support nurse practitioners with achieving their maximum potential through educational grants, community outreach, focused research, and projects. We are dedicated to the advancement and promotion of Nurse Practitioners in roles spanning the entire spectrum of fields within the healthcare arena.

LNPF is a 501 (c) 3 organization established in 2015. The Foundation was created to assist with funding nurse practitioners' education towards the attainment of a Doctorate of Nursing Practice Degree (DNP). Other purposes of the Foundation include research, advocacy, community outreach endeavors, and promoting the education of registered nurses (RNs) into the nurse practitioner (NP) role.
