YOU'RE INVITED!

A Personal Invitation from:
Dr. Craig Walker | Founder & Chairman

Peripheral vascular disorders are extraordinarily common, affecting more than 50 million Americans, and these conditions are associated with high morbidity and mortalities. We must all do a better job in diagnosing and treating these patients, not only to improve symptoms, but to diminish rates of cardiovascular death and costly complications. A rapidly growing conference, New Cardiovascular Horizons is a comprehensive cardiac review of options for treatment, including live cases from many of the world's masters and 25+ CME credits. Join me in New Orleans this year as we follow our mission to improve care through cardiovascular medical advancements.

Craig M. Walker MD

Conference Features:

20+ continuing medical education/maintenance of certification units

1,500+ attendees from more than 30 U.S. states
