INNOVATIVE TREATMENT OPTION FOR OBSTRUCTIVE SLEEP APNEA

Interactive Dinner Discussion

Unmanaged obstructive sleep apnea is a problem that affects more than 22 million Americans.

While CPAP is an effective frontline treatment, many patients stop using CPAP which can have a devastating impact on health and quality of life. Studies show that long term adherence rates are less than 50%.

Presenter: Dr. Joehassin Cordero, M.D., FACS

**Title: Professor, Chair and Program Director
TTUHSC**

Date: Wednesday, June 14th

Time: 6:00 p.m.- 7:30 p.m.
