FreeStyle Libre 

 **Abbott**
life. to the fullest.®

See last page for disclaimers and Important Safety Information.

1

We will cover topics such as:

- How FreeStyle Libre systems are different from fingersticks*
- Putting on and starting your sensor
- How to get your first glucose reading

It takes just 2 minutes to save your seat! Scan the QR code or visit www.MyFreeStyleLive.com

After providing some information, click on the “In Person” section to choose the event in your local area

*Fingersticks are required if your glucose alarms and readings do not match symptoms or when you see Check Blood Glucose symbol during the first twelve hours.

Important Safety Information

Failure to use FreeStyle Libre 2 or FreeStyle Libre 3 systems as instructed in labeling may result in missing a severe low or high glucose event and/or making a treatment decision, resulting in injury. If glucose alarms and readings do not match symptoms or expectations, use a fingerstick value from a blood glucose meter for treatment decisions. Seek medical attention when appropriate or contact Abbott at 855-632-8658 or <https://www.FreeStyle.abbott/us-en/safety-information.html> for safety info.

The sensor housing, FreeStyle, Libre, and related brand marks are marks of Abbott.
