

Tamra Schue, DNP, FNP-BC, DCNP

I was born and raised in Fargo, ND. I graduated from NDSU with my DNP in 2008. I worked in family medicine for nearly 10 years at Essentia. In this role, I had the opportunity to work with precepting graduate students, mentoring new graduates, and worked on the committee for the Medical Home Initiative.

My passion for dermatology was strong and an opportunity arose to join my father's clinic. In this position, I experienced leadership opportunities progressing towards ownership of this clinic in 2019. I have grown this clinic from a team of 4 members to currently we employ 19 amazing health care workers. I believe education is the foundation of great health care, so I sought out double board certifications with ANCC Family Medicine and Dermatology Certified Nurse Practitioner. I possess great experience within the industry. I belong to an international speaker circuit and have the opportunity to work and train with some of the best clinics around the world.

Nurse Practitioners are the foundation of quality care throughout the world. I possess a unique position as an independent clinic owner. I understand the day-to-day struggles NPs face not only in practice but also within ownership opportunities around the state. Independent clinics need guidance and a voice within our state. I strongly believe I would be a great addition to the already esteemed board of Nurse Practitioners.
