## **Inside Mammography: From Screening to Diagnosis**

Dr. Jennifer Boals of Diagnostic Imaging will share how the latest 3D technology, diagnostic imaging, and biopsy services are transforming breast care—and why a personalized approach makes all the difference for your patients.

### ***Jennifer Boals, MD***

Jennifer Boals, M.D. joined Diagnostic Imaging in 2001. A Tennessee native, Dr. Boals received an undergraduate degree in English Literature from the University of Tennessee at Knoxville. She earned her medical degree at the University of Tennessee at Memphis and completed her residency in Diagnostic Radiology at Methodist University Hospital of Memphis. She completed her fellowship in Women’s Imaging at the Medical College of Wisconsin in Milwaukee.

Dr. Boals is board certified by the American Board of Radiology. Her professional memberships include the American College of Radiology, Tennessee Radiological Society, Radiological Society of North America, the American Roentgen Ray Society, and Society of Breast Imaging.
