WORK EXPERIENCE:

**Optum Health Home & Community
Advanced Practice Clinician, FNP**

**Port St. Lucie, Florida
07/2024-Present**

- Provide comprehensive telephonic assessment, diagnosis, and treatment planning for a diverse patient population across the lifespan, focusing on primary care, chronic disease management, and preventive health.
- Manage acute and chronic conditions (e.g., hypertension, diabetes, COPD) through virtual consultations, medication management, and patient education.
- Utilize electronic health records (EHR) and telehealth platforms (e.g., Epic, Teladoc, Amwell) to document clinical encounters and coordinate care.
- Conduct virtual follow-ups and medication reviews to improve adherence and outcomes for high-risk patient populations.
- Collaborate with interdisciplinary care teams including physicians, behavioral health providers, social workers, and case managers.

- Participate in quality improvement initiatives, clinical audits, and evidence-based care protocol development for remote care delivery.
- Provide patient triage, education, and counseling via secure messaging and phone, adhering to HIPAA and telehealth regulatory guidelines.
- Evaluate patient-reported outcomes and use clinical judgment to determine when in-person care is needed.
