

Join Us for an Educational Program:

# Understanding the Burden and Unmet Needs in **Uncontrolled Gout**

## Objectives:

- Deepen understanding of gout as a chronic, systemic, and progressive condition
- Explore the multifactorial contributors to elevated serum uric acid levels
- Understand the bidirectional association between uncontrolled gout and serious comorbidities
- Review the current treatment landscape and provide insight into the ever-evolving science for the management of gout

Pre-register to let us know you will be joining.

This program is subject to cancellation. This educational, non-CME program is intended only for US healthcare professionals interested in learning more about uncontrollable gout and does not promote any specific product or therapy. The information presented is consistent with publicly available information and current clinical data.

The speaker is a paid consultant of Sobi, Inc.

As required by the U.S. Sunshine Act, the value of any meal or other transfer of value provided to healthcare professionals attending this educational program may be reported to the Centers for Medicare & Medicaid Services (CMS) and made publicly available.

If you prefer to opt out of receiving a meal or any other transfer of value, please notify the program representative in advance or indicate your preference at registration.

Attendance is limited to invited healthcare professionals only; guests or spouses are not permitted.
