

YOU'RE INVITED

ADVANCING PELVIC HEALTH

An educational dinner for Austin Advanced Practice Nurses

TOPICS INCLUDE

Patient screening and pelvic floor muscle training (PFMT) as first line care

Improving patient access and adherence

Clinical outcomes and durability data

Integrating treatment options into clinical practice

Leva® PELVIC HEALTH
SYSTEM

The Leva® Pelvic Health System is intended for treatment of stress, mixed, and mild to moderate urgency urinary incontinence (including overactive bladder), treatment of chronic fecal incontinence (>3-month uncontrolled passage of feces), and strengthening pelvic floor muscles in women. This device interacts with the user via smartphone technology. Talk to your provider to see if the Leva System is right for you. Do not use the Leva System while pregnant, or if you think you may be pregnant, unless authorized by your doctor. For a complete summary of the risks and instructions for the Leva System, see its Instructions for Use available at www.levacares.com.

JOIN US

Education & discussion on evidence-based urinary incontinence treatment. You'll leave with practical tools to expand your treatment options and support patient care.

Featuring expert insights from:

**Samantha Pulliam,
MD, FACOG**

CEO and Chief Medical Officer
