

The Ethnic Minority Visiting Scholar Lecture Series

President Donna E. Shalala

University of Miami

Chair, IOM Future of Nursing Report

Presents:

*Practicing to the Full Extent of One's Education:
Implications for Providers, Diversity & the People of North Carolina*

About the Speaker

Donna E. Shalala is Professor of Political Science and President of the University of Miami. President Shalala has more than 30 years of experience as an accomplished scholar, teacher, and administrator.

In 2009 she was appointed Chair of the Committee on the Future of Nursing at the Institute of Medicine of the National Academy of Sciences. "The report's recommendations provide a strong foundation for the development of a nursing work force whose members are well-educated and prepared to practice to the fullest extent of their training, meet the current and future needs of patients, and act as full partners in leading advances in the nation's health care system," said Shalala. States, federal agencies, and health care organizations should remove scope of practice barriers that hinder nurses from practicing to the full extent of their education and training, the report says.

In 1993 President Clinton appointed her U.S. Secretary of Health and Human Services. She also served in the Carter administration from 1977-80 as Assistant Secretary for Policy Development and Research at the U.S. Department of Housing and Urban Development. In 2007, President George W. Bush handpicked Shalala to co-chair with Senator Bob Dole the Commission on Care for Returning Wounded Warriors.
