Note: Beginning July 1, 2012, Abbott's U.S. pharmaceutical business began tracking payments and transfers of value to health care professionals for quarterly reporting. The first report will be posted at the end of 2012. If you have any questions, please speak to your Abbott contact or e-mail TransparencyReporting@Abbott.com.*

**While quarterly reports include only physicians (M.D.s and D.O.s), Abbott fully complies with the various state transparency laws (DC, MA, MN, VT, WV), all of which require broader reporting than just physicians.*

In accordance with the PhRMA Code on Interactions with Healthcare Professionals,
attendance at this program is limited to healthcare professionals.
