

LUNCHTIME EDUCATION IN THE YEAR 2015

Thurston County Family and Juvenile Court and Thurston County Bar Association present free* training for legal, mental health, education and social services professionals working with court-involved children and families.

“Impact of Marijuana on the Adolescent Brain”

A presentation by Scott McCarty, PhD.

This training is designed for attorneys, service providers and community members and provides a primer on the impact of marijuana on the adolescent brain. The teenage years are the last best opportunity for an individual to reach their full brain potential. Regular marijuana use actually changes the structure of the teenage brain. This presentation will help professionals make sense out of the recent change in laws and policy and better understand health implications around marijuana legalization in our state.

Tuesday, May 5, 2015

12:15 to 1:15 pm

Family and Juvenile Court Building, Courtroom 2
