

PUBLIC HEALTH AND SOCIAL SERVICES DEPARTMENT

PARTNER COMMUNICATION SURVEY April 2015

TO: COMMUNITY PARTNERS

Concerns about seasonal flu, the ongoing measles outbreak, and the Ebola epidemic remind us that the potential for rapidly-evolving infectious disease and other public health issues is ever-present. We are contacting you because you have been identified as a partner we may need to communicate with regarding emerging health issues or in urgent circumstances. We want to be sure that you get the information you need, using the methods that will work best.

Please complete this survey to help us determine what would benefit you. Feel free to distribute this survey to others in your practice or organization.

Thank you for your cooperation.

Rachel C. Wood M.D., M.P.H.

Rachel Wood, MD, MPH
Thurston County Health Officer
