ED Seminar for Healthcare Providers

Erectile dysfunction is not only a problem in the bedroom

Up to 50 million men in the US suffer from ED,¹ yet less than 1% of them move on to receive a long-term solution.²

As an early indicator of cardiovascular disease³ and other serious illnesses, screening patients for ED is more important than ever.

Connect with an ED specialist

- Learn about advanced treatment options
- Improve patient care

Dr. Robert (Clay) Williams has been providing excellent urological care for almost two decades in the same city where he started his practice, Tyler, Texas. He developed a keen interest in male sexual medicine during his urology residency. Dr. Williams trained with several other male sexual health experts including Dr. Steve K. Wilson during his urology residency at the University of Arkansas for Medical Sciences (UAMS) in Little Rock and with Dr. Paul Perito in Miami, Florida. Training with the two of them is where Dr. Williams first learned and perfected his skills in penile prosthetic surgery.

Date: November 11, 2025
