

ART, Associate in Arts Degree - 2130

Communication, Humanities and the Arts Department

The Art associate degree serves as a foundation for students who plan to transfer to four-year institutions for further work in fine arts, graphic and interactive design, or in the specialty areas of ceramics, drawing, jewelry, painting, printmaking, sculpture, and art history. Upon successful completion of the program, students will have acquired the appropriate number and type of art pieces needed to create a portfolio, if required, for admission to most four-year institutions. HACC's Art programs are accredited by the National Association of Schools of Art and Design (NASAD), which is a specialized accrediting agency for schools of art and design that is recognized by the United States Department of Education. NASAD's major responsibility is the accreditation of education programs in art and design including the establishment of curricular standards and guidelines for specific degrees and credentials. Institutional membership is gained only through the peer review process of accreditation. Since the requirements of senior institutions vary widely, it is essential to choose an intended transfer institution as soon as possible and carefully follow the program described in that college's catalog. The complete program is available at the Harrisburg and York campuses.

Transfer Opportunities

This transfer curriculum is provided as a guide for students planning to transfer to a baccalaureate degree granting institution.

Competency Profile

This curriculum is designed to prepare students to:

- Create two- and three-dimensional work effectively using the elements and principles of art and design
- Use color theory effectively
- Draw from observation including life studies
- Demonstrate skills in a variety of techniques and materials
- Demonstrate knowledge of how cultural, political, social, and gender issues have affected the creation of art within a historical context
- Use art and design terminology effectively during critiques and discussions of visual images and objects
- Develop creative processes and research methods
- Use current technology as applied to the arts

PROGRAM REQUIREMENTS (TOTAL CREDITS = 60)
