

BIOLOGY, Associate in Science Degree - 3096

Science Department

The Biology AS degree prepares students who wish to transfer to a four-year institution that offers a bachelor's degree program in biology, pre-professional health careers, ecology, genetics, microbiology, or botany. Since the requirements of senior institutions vary widely, it is essential that students choose an intended transfer institution as soon as possible and carefully follow the program described in that college's catalog. The complete program is available at the Harrisburg, Lancaster, and York campuses.

Career or Transfer Opportunities

This transfer curriculum is provided as a guide for students planning to transfer to a baccalaureate degree granting institution.

Competency Profile

This curriculum is designed to prepare graduates of the program to:

- Demonstrate technical communication skills including written, spoken, and graphical presentation of scientific data
- Collect, manipulate, analyze, and interpret data
- Explain basic principles and concepts of science including the nature of science and scientific ethics as applied to the discipline
- Demonstrate competency in entry-level technology that supports the scientific process
- Apply the scientific method to solve scientific problems
- Utilize discipline-specific scientific scholarly resources such as library and web-based resources
- Conduct biological laboratory exercises using appropriate techniques and instrumentation
