

HUMAN SERVICES, Associate in Applied Science Degree - 5556

Health & Public Service Department

The Human Services AAS program prepares students to work as human service professionals who are able to provide direct-service delivery to clients in a variety of community-based social service agencies. Students are able to select from one of two tracks: the **General Human Services** and **Drug and Alcohol Services**. The General Human Services track promotes a generalist perspective that ensures that students obtain the knowledge and skills necessary to function in most human service settings. The Drug and Alcohol Services track is more specialized and builds upon that perspective by focusing on a specific client group. The General Human Services track is accredited by the Council for Standards in Human Service Education. Students are required to complete a Pennsylvania Child Abuse History Clearance, FBI Criminal Background Check, and a State Police Criminal Record Check prior to enrollment into the practicum course. If the student has any questions regarding this, he or she should contact the Program Director or Practicum Coordinator. Both tracks can be completed at the Harrisburg, Lancaster and York campuses. The General Human Services Track can be completed at the Gettysburg and Lebanon. The Drug and Alcohol Services Track can be completed at the Lebanon Campus by taking some courses through Virtual Learning.

Career Opportunities

Graduates of the program receive the training and education for entry-level positions in a number of social and human service fields, such as family services, women’s programs, rehabilitation for alcohol dependency, and services for people with intellectual disabilities.

Competency Profile

General Human Services

This curriculum is designed to prepare students to:

- Establish and maintain effective working relationships with clients and their families to plan treatments and/or services
- Perform case management responsibilities in a variety of settings
- Explain the ethics and laws applicable to the human service field
- Recognize the characteristics of culturally diverse populations

Drug and Alcohol Services

The curriculum is designed to prepare students to:

- Establish and maintain effective working relationships with clients and their families to plan treatments and/or services
- Discuss the use of drugs and alcohol from a historical, social, biological, and psychological perspective
- Discuss the current models of drug and alcohol prevention and treatment
- Conduct effective crisis and brief intervention counseling techniques and strategies
- Identify the symptoms and behaviors that constitute the basis for diagnostic assessments
- Explain the ethics and laws applicable to the drug and alcohol field
