

# FAST FACTS REVIEW

## NEW Transitions® Signature™ VII

# A REVOLUTIONARY BREAKTHROUGH

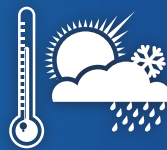

Groundbreaking technology that absorbs more light, making Transitions Signature VII darker when it counts

**Darkest** photochromic lenses available with **full indoor clarity**.

**Greater temperature stability** for consistent performance all year long.

**Best true-to-life color...** for better appearance and color perception.\*

\*The result of comparing to other photochromic lenses.

## Opening New Opportunities for Greater Patient Satisfaction

### Clear lens wearers

- **Optimized:** Darkest photochromic lenses with full indoor clarity
- **UV protection:** Block 100% of transmitted UVA/UVB rays to protect patients' eyes
- **Comfortable vision:** Less squinting for patients as lenses adapt to changing light

### Existing photochromic lens wearers

- **Superior performance:** More **comfortable vision** and **better protection**
  - Up to **40%** darker outdoors
  - Up to **57%** more temperature stable
- **Patient satisfaction:** Highest patient satisfaction with lens color at dark state

### Wearer preference proven by Life360™

**8 out of 10 prefer Transitions VII to their current clear lenses†**

**Preferred 2 to 1 over Transitions VI lenses†**

When combined with Varilux® Progressive and Crizal® No-Glare Lenses, Transitions Signature VII offers the sharpest and most comfortable vision at every distance and light condition.
