

Subject: MCR-10062, Fix typo in window\_.info

Author: Eric Swenson

Date: May 25, 2019

## Problem Description

>doc>window\_.info, in the documentation for the window\_\$position\_cursor entry, has a typo. The following description of the iocb\_ptr and line parameters:

```
iocb_ptr
  is a pointer to an IOCB for a switch attached with window_io_.
  (Input) line is the line number.  (Input)
```

should be changed to:

```
iocb_ptr
  is a pointer to an IOCB for a switch attached with window_io_.
  (Input)
line
  is the line number.  (Input)
```

Ticket <http://multics-trac.swenson.org/ticket/141> describes this issue.

## Proposed Changes

Correct the typo. A comparison of the original and changed info segment follows:

```
cpa >doc>info>window_.info ==
A1      11/26/86  window_
A2
Changed by B to:
B1      2019-05-25  window_

A600      (Input) line is the line number.  (Input)
Changed by B to:
B599      (Input)
B600      line
B601      is the line number.  (Input)

Comparison finished: 2 differences, 7 lines.
r 16:11 0.144 0
```

## Documentation

No documentation is required.

## Testing

No testing required.
