

SEVERE WEATHER MAP

In the event of rain, maps will be distributed upon band's arrival.

Rain plan: When directed to do so, bands will unload and enter the building at door 16 in the rear of the school. Once complete, bands should proceed to the cafeteria for their allotted warm up time. After warm-ups, bands will proceed to the auxiliary gym at their "gate time," and will enter the large gym for their performance. After their performance, each band is asked to then return to their bus as the school is only able to accommodate one band unloading, one band warming up, one band staged in the auxiliary gym, one band performing, and one band exiting the building. Information pertaining awards will be given that evening.
