The Michigan Aerospace Manufacturing Association continues to support the industry through research and development in the aerospace supply chain. While identifying opportunities for cost savings, the association has taken a proactive stance in the development of additive manufacturing technology and battery logistics. These efforts have helped attract investment in Michigan's aerospace industry. In particular, AE Industrial Partners acquired Michigan-based Moeller Aerospace in 2016.

MAKING COLLABORATION WORK: SUPPLY CHAIN OPPORTUNITIES

Aggregate Demand Model™

Integrating Aerospace Supply Chain Through Advanced Collaboration Software

- Cost (reduced >20%)
- Quality (reduced errors)
- Delivery (early intervention)
- Risk Mitigation
- Single Source Program Management
- Complete Schedule & Communication Visibility
- Real Time Communications
- Real Time Reporting

MICHIGAN AEROSPACE MANUFACTURERS ASSOCIATION

- Founded 2007
- Focused on Business Development
- Over 150 Aerospace Suppliers:
 - Engineering Services
 - Tooling and Production Systems
 - Aerostructures – Metal & Composite
 - CNC Machining, Broaching, Stamping, EDM
 - Heat Treating, Plating/Coating
 - Laser/Waterjet, Hydroforming, Rollforming
 - Printed Circuit Boards, Wiring Harnesses
- **ADM Powered by ProFIT-MAP™**
- Working Groups
 - Battery Logistics Development Group
 - Additive Manufacturing
