EVERGREEN OFFERS A SIX MONTH WARRANTY AS FOLLOWS:

- Warranty is for a period of six (6) months after day of receipt. The battery is warranted to deliver the capacity stated at the time of purchase.
- During the six (6) month period, Evergreen Industrial Batteries will repair or replace the battery at our discretion. Any repaired or replaced battery carries the balance of the original warranty period only.
- Batteries must be charged with a charger of matching Amp Hour and voltage capacity. Amp hour rating of the charger must be within 10% of battery Amp hour.
- Chargers using electromechanical timer controls void the warranty. Controls must be at a minimum electronic automatic start stop with an equalize function.
- Batteries must not be cycled more than once per any 24 hour period.
- Opportunity charging will void the warranty.
- Batteries shall be properly maintained and watered on a regular schedule.
- The battery shall be fixed to properly match the truck it is running.
- Battery temperature shall not exceed 125 degrees F. nor drop below 32 degrees F.

IF YOU HAVE ANY QUESTIONS ON BATTERY OPERATING AND MAINTENANCE, CONTACT EVERGREEN INDUSTRIAL BATTERIES FOR TECHNICAL ASSISTANCE.
