

David R. Stewart, PhD, PE

President and CEO

Stewart Environmental Consultants, Inc.

Fort Collins, Colorado

Dr. Stewart is the president and CEO of Stewart Environmental Consultants, Inc. He has over 30 years of experience in the environmental industry, and he is a registered Professional Engineer in Arizona, Colorado, Oregon, California, and Wyoming and also a Certified Hazardous Materials Manager. Dr. Stewart keeps abreast of the latest technology advancements by participating in industry-related conferences and has authored numerous peer reviewed technical papers. Dr. Stewart actively volunteers on various professional committees. In 2002, Dr. Stewart was awarded the National Community Service Award from the American Council of Engineering Companies. Dr. Stewart is also the pioneer for developing a new source from produced oil water.

He earned a bachelors of science degree in civil engineering from Colorado State University in 1976 and then went on to earn his masters degree in environmental engineering from the University of Arizona. Since then, he has earned a masters degree in business administration and his doctorate in environmental engineering from Colorado State University.
