Inception date of the Flexible Fixed Income Fund is February 1, 2016. Flexible Fixed Income Fund returns reflect Class P - Master Series, net of fees and expenses. We have listed the iShares U.S. High Yield Bond Index ETF (CAD-Hedged) and iShares Canadian Corporate Bond Index ETF as benchmark indices as these are widely known and used benchmark indices for fixed income markets. The Fund has a flexible investment mandate and thus these benchmark indices are provided for information only. Any indices listed have been listed as proxies for the general fixed income market, or sectors of the fixed income market, as relevant. Comparisons to benchmarks and indices have limitations. The Fund does not invest in all, or necessarily any, of the securities that compose the referenced benchmark indices, and the Fund portfolio may contain, among other things, options, short positions and other securities, concentrated levels of securities and may employ leverage not found in these indices. As a result, no market indices are directly comparable to the results of the Fund. Past performance does not guarantee future returns.
