

 SeeTest™  
**MobileCloud** platform  
by Experitest

### Benefits

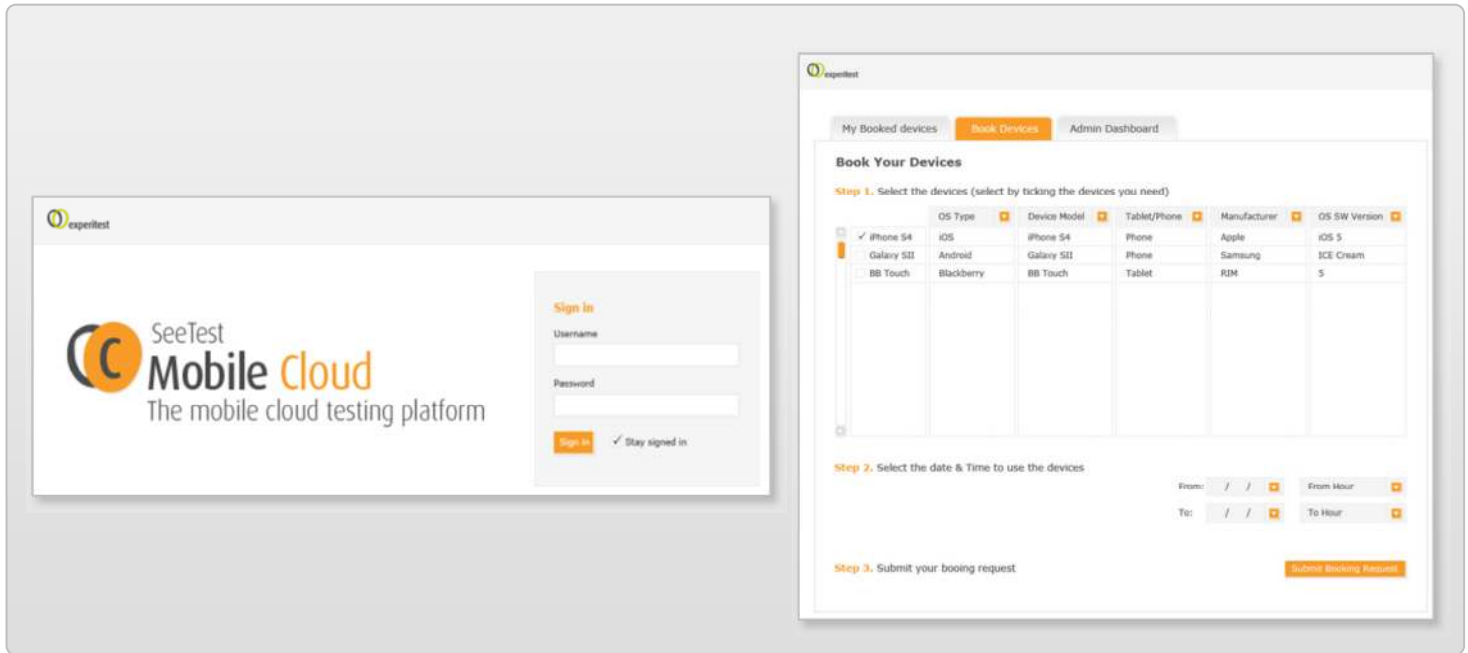

- ✓ Top security – because it is your own organization's security
- ✓ Easy remote access to a large inventory of mobile devices
- ✓ Efficient usage of mobile devices for testing by sharing resources (by accessing remotely) across the organization
- ✓ Support for any device, including new devices and proprietary hardware devices that have not yet been commercially launched

### Features

- ✓ Connect all mobile devices to one central hub/server that resides in your organization
- ✓ Enable remote access from anywhere in the organization to any device
- ✓ Book & Schedule devices
- ✓ Advanced booking options including: device filter by OS, SW version, tablet/device and more
- ✓ Enforce device usage and remote access based on user class

## Book a device

Easy selection of devices including advanced options such as filter by OS, software version, tablet/phone and more criteria. Booking confirmation is immediate based on the available inventory for the requested timeframe. Booking may include several devices from the same OS or from different OS, enabling to run the same script on different phones and different mobile OSs.

The image shows two screenshots of the SeeTest Mobile Cloud interface. The left screenshot is the sign-in page, featuring the SeeTest Mobile Cloud logo and a sign-in form with fields for Username and Password, and a 'Sign in' button. The right screenshot is the 'Book Your Devices' page, which includes a table for selecting devices and a form for selecting the date and time.

**Book Your Devices**

Step 1. Select the devices (select by ticking the devices you need)

<input type="checkbox"/>	OS Type	Device Model	Tablet/Phone	Manufacturer	OS SW Version
<input checked="" type="checkbox"/>	iOS	iPhone S4	Phone	Apple	iOS 5
<input type="checkbox"/>	Android	Galaxy SII	Phone	Samsung	ICE Cream
<input type="checkbox"/>	Blackberry	BB Touch	Tablet	RIM	S

Step 2. Select the date & Time to use the devices

 Submit Booking Request

## Start a remote testing session with your booked devices

SeeTest MobileCloud enables each authorized user in your organization to remotely access the mobile devices he booked (the devices are hooked to the central device hub/s that reside/s inside your organization). User has intuitive, easy interface to initiate his session:

- Comprehensive view of all booked sessions with one-click expansion view for the list of devices in each booked session.
- Easy, one-click initiation of a booked session: access the devices you booked

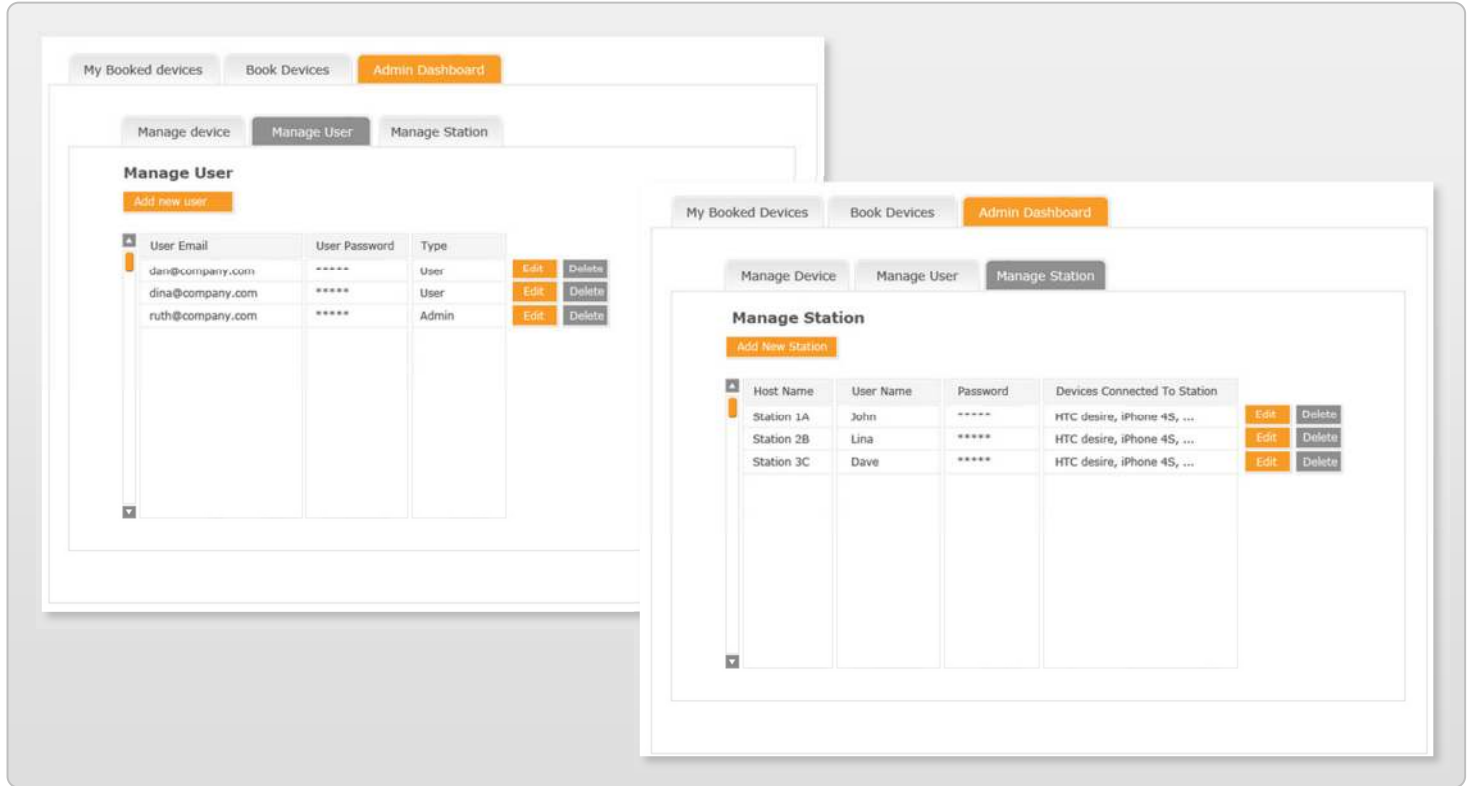

The image shows two screenshots. The left screenshot is the 'My Booked Devices' page, displaying a list of booked sessions with columns for Start Date/Time, End Date/Time, and buttons for 'Delete' and 'Start'. The right screenshot is a diagram titled 'Enterprise VPN' showing a central globe with the SeeTest logo, connected by blue lines to various mobile devices (laptop, smartphone, tablet) representing remote access.

**Enterprise VPN**

## Admin dashboard with user, device and station control

Dashboard for system administrators to manage users, devices and stations (hubs/servers).

### Admin dashboard - User & Station views:

The screenshot displays two overlapping panels from the Admin Dashboard. The top panel shows the 'Manage User' view, and the bottom panel shows the 'Manage Station' view.

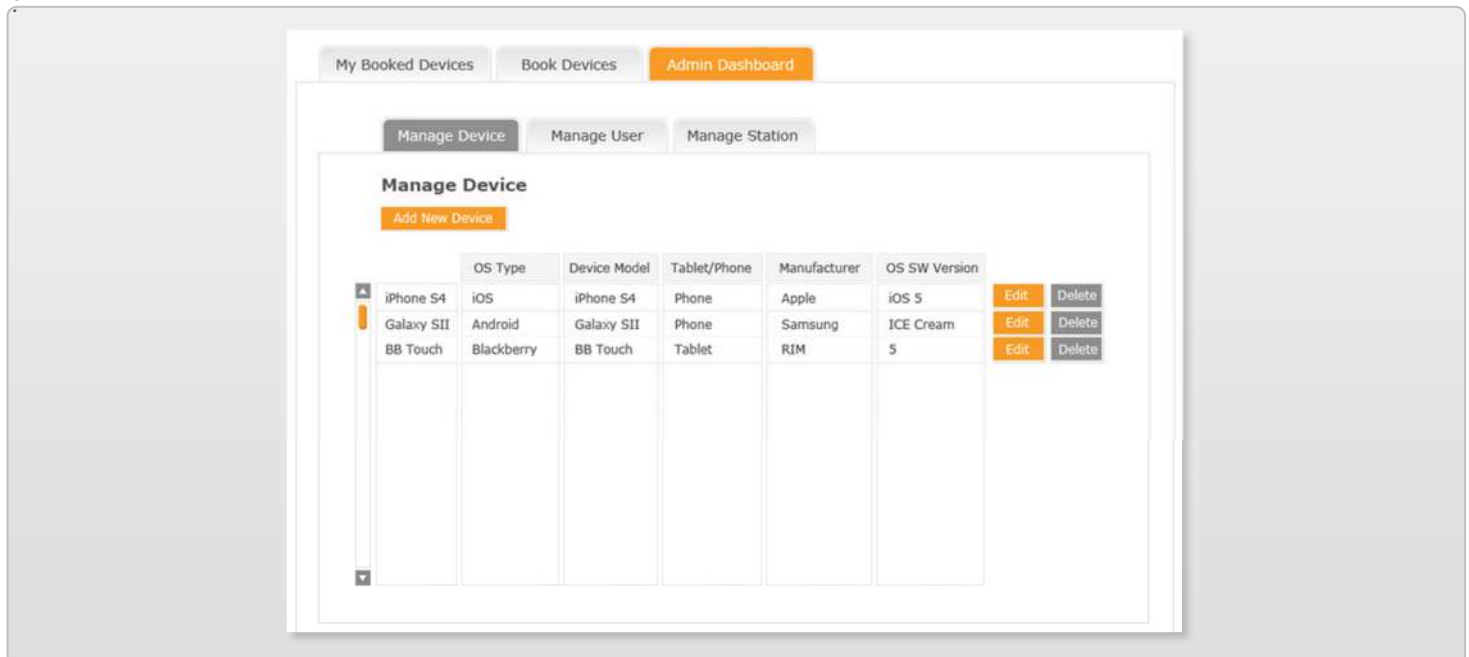

**Manage User View:**

User Email	User Password	Type	Edit	Delete
dan@company.com	*****	User	Edit	Delete
dina@company.com	*****	User	Edit	Delete
ruth@company.com	*****	Admin	Edit	Delete

**Manage Station View:**

Host Name	User Name	Password	Devices Connected To Station	Edit	Delete
Station 1A	John	*****	HTC desire, iPhone 4S, ...	Edit	Delete
Station 2B	Lina	*****	HTC desire, iPhone 4S, ...	Edit	Delete
Station 3C	Dave	*****	HTC desire, iPhone 4S, ...	Edit	Delete

### Admin dashboard - Device view:

The screenshot displays the 'Manage Device' view from the Admin Dashboard.

**Manage Device View:**

OS Type	Device Model	Tablet/Phone	Manufacturer	OS SW Version	Edit	Delete
iOS	iPhone S4	Phone	Apple	iOS 5	Edit	Delete
Android	Galaxy SII	Phone	Samsung	ICE Cream	Edit	Delete
Blackberry	BB Touch	Tablet	RIM	5	Edit	Delete
