

Our Story—The Pizzeria

Once upon a holiday, three brothers—a chef, an engineer, and a businessman—decided that though life had spread them across two countries, pizza could bring them back together. After a year of planning, saving, selling, moving, and building, the Formacio brothers opened The Pizzeria in 2010, and they've been serving up their family recipe of always delicious, handcrafted pizza ever since. It's so good, they even serve it up at a second location now!
