

How a No Down Payment, Year-Round-Savings Workers' Comp Program Can Make 2010 Your Best Year As An Agent

Dear Insurance Representative,

Are your clients in high risk industries like:

- Roofing
- Construction
- Transportation
- Home Health Care
- Assisted Living Facilities
- Manufacturing.

If so, then the PAYGO program could make this year your most profitable yet.

In times of an uncertain economy, more and more businesses are looking to cut costs in any way they can. In some areas, such as Workers' Comp, they have no choice but to buy. They do, however, get to decide which program they choose, and savings has a large part in this decision.

This is where Galient Insurance comes in.

We offer your clients:

- No Down Payment – To attract any client who is low on capital or simply wants to invest their financial resources in something more lucrative than an unnecessary lump sum.
- Pay As You Go Program – Each month, your client's fees are calculated based on their current workforce payroll. This process eliminates over-payments during less active periods that tie up your clients' capital. PAYGO also eliminates underpayments in other months that result in large, stressing balloon payments at the end of the year. This is a *must* for all businesses that are seasonal in nature or fluctuate in payroll during the year.
- Rates Below the Competition – Competitive rates make you the agent clients turn to when they want to save.
- Quick Turnaround Time – Your clients have the confidence that when they need something processed, it will be done quickly and efficiently. You don't have the hold-ups from overworked claims managers at large firms.

As an agent, you can expect:

- 90% Retention Rate – One sale can pay you for years to come
- Easy to explain program
- Speedy payout on commissions
