## **KARL LAGERFELD SUMMER 2017 WATCH TRENDS**

*UNEXPECTEDLY DARK COLORS AND SUBTLE METALLIC PLATINGS  
OFFER A UNIQUE PERSPECTIVE ON SUMMER STYLE.*

For summer '17, KARL LAGERFELD introduces a collection centered around the brand's newest platform, the Linda, in rich, deep colors and metallics that contrast perfectly with summer's saturated, colorful fashions. Signature KARL LAGERFELD design elements, such as uniquely-shaped cases and stud indexes, add up to a collection of cool, must-have timepieces.

### **AVANT-GARDE ANGLES**

The Linda makes its debut with an Art Deco-inspired, elongated rectangular case and chevron-striped leather straps or three-link metallic bracelets. The bracelets showcase a stunning dial with two levels of floating crystals for three-dimensional sparkle, while the leather-strapped versions are complemented by a beveled dial with pyramid stud indexes. An unexpectedly dark, neutral color palette lets the details of the Linda shine on the wrist.

The KARL LAGERFELD Summer '17 collection will be available beginning April 2017.
