

5 Easy Ways To Spice Up Plain Sweaters And Tops

You loved that black turtleneck when you saw it in the store, but you can't ignore the Steve Jobs vibe it gives you whenever you put it on.

In your head, this was the perfect top for over the holidays, but now that you see it in the mirror, it just feels underwhelming.

You're wondering if it's too late to return the sweater and start all over again in search of the perfect holiday outfit.

We've all been there.

But it's actually pretty easy to dress up a simple top, and by the time you're done getting ready, you'll be sure to turn heads.

Here are 5 simple ways to turn a plain top or sweater into a style worth envying:

1. Wear a sexy, voluminous hairstyle. Whether it's big curls, a voluminous blowout, or an eye-catching updo, a glamorous hairstyle is a fun, easy way to elevate any look! Find the hairstyle that flatters you best, and make it the focal point of your look. You'll be amazed by how easily this can transform your top from simple to stunning.

2. Opt for a bold lip or smoky eye. Making a statement with your makeup is a fun way to spice up even the simplest outfits. Use bold eyeshadow shades to enhance your eye color, or embrace the dark, vampy lip that's so popular for the winter time. You can even go for a bright red lip for a more classic look, and you won't have to worry about looking overdone.

3. Add a tall pair of boots. Over-the-knee boots are everyone's favorite statement this winter, and they look great on every body type. Add a black pair of boots for a sleek, sophisticated look, or try a fun color instead for a more flirty style.

4. Throw on your favorite statement earrings. Big costume earrings are the perfect accessory for dressing up simple tops. Whether you prefer hoops or a chandelier style, you can't go wrong with statement earrings. As a bonus, you'll look elegant and fashion-forward in every photo you take.

5. Complete your outfit with bold-patterned bottoms. Pair your sweater or top with patterned pants, leggings, or a skirt for a more edgy style this winter. An eye-catching pattern, like a floral or plaid, is a great way to balance out a more simple top, and you're sure to get compliments on your keen eye for detail.
