

The logo consists of the letters 'GB' in a bold, white, sans-serif font, enclosed within a white square border.

GRAND BANKS YACHTS

A white Grand Banks 60 yacht is shown from a low angle, moving across a calm body of water. The yacht has a dark stripe along its hull and a person is visible on the upper deck. The background features a hazy, mountainous coastline under a soft, golden sky.

GRAND BANKS 60

It's Coming...

SEE THE NEW GB60

With performance so far beyond expectations, and aesthetics so breathtaking, the only way to fully grasp the GB60 is to experience it first-hand. Until then, here are 5 reasons to believe the hype:

1

The GB60 boasts a **draft of less than 4 feet** for incredible go-anywhere access.

2

Our warped hull shape features a **fine entry** and only 6 degrees of transom deadrise. This, combined with an exceedingly **low center of gravity** due to our infused carbon fiber deck and flybridge, creates rock-solid stability.

3

Monocoque construction delivers exceptional strength and rigidity for quiet, safe and efficient cruising.

4

100% vinylester resins and a cross-linked Corecell™ **foam core** make for an ideal power-to-weight ratio and enhanced durability.

5

Quiet yet aggressive power from our **reliable marine engine** partners, coupled with our new hull design, provides unmatched fuel efficiency at all speeds for a soft, safe ride.
