

GRADUATIONS STOLES PRESS RELEASE

Your Graduation Day is one milestone during which the spotlight is all on you, a day where you are the star. It's also a good opportunity to showcase your pride for who you are, your heritage and everything connected to it. Prime Heritage products offers custom-made products to help you celebrate YOU. Our personalized stoles are crafted according to your desired design and add a whole lot of pop to your cap and gown ensemble on Graduation Day; they make your photos stand out.

Our vinyl imprinted stoles are fashioned with a simple heat transfer process. Graphics, symbols, letters or logos are pressed onto the fabric of your choice in a way that ensures longevity for your stole, with limited use. The set up and production time is much quicker than that of embroidery and cost much less to make. These are the stoles and sashes of choice when limited delivery time and budget bear weight on your decision-making process. Our vinyl stoles can be produced and delivered within 7 days of production; we also have rush services.

The embroidery stoles we have in stock are just what you need to walk across the dais in style on your graduation day. Sporting multi-color, complex logos and graphics, this type of stole can pretty much exhibit whatever you want the world to know as you accept your diploma. Our embroidered stoles employ a stitching process, using high quality, vibrantly colored threads that afford the finished product much higher longevity. As you ensure that your most cherished memories of your special day are well preserved, you can be assured that your stole will be preserved too.

Please allow 14 working day for production during the peak busy months of March – end of May. Rush service available.
