

## ALL-NEW FORD FLEX

You're looking at the future of transportation. And it's closer than you think.

With distinctive design and technology, the all-new 2009 Ford Flex—which arrives this summer—defines the crossover category. It has available seven-passenger seating and limo-like second-row legroom; **AN OPTIONAL UNIQUE REFRIGERATOR SYSTEM** for thirsty travelers; and a two-tone roof option and an available distinctive Multi-Panel Vista Roof™ to let in the sun (after dark, an optional ambient lighting system offers a choice of seven colors to set the interior mood). The all-new Flex shows off its intelligence in safety too, with an available rear back-up camera, standard AdvanceTrac® with Roll Stability Control™ (RSC®) and standard three-row Safety Canopy® side curtain airbags. Under the hood, an award-winning 3.5-liter V-6 engine mates with an efficient 6-speed transmission and available intelligent all-wheel drive to provide powerful, confident road manners. —Gary Wollenhaupt
