

I FEEL
SLOVENIA

SLOVENIA. MY WAY OF LIVING GREEN.

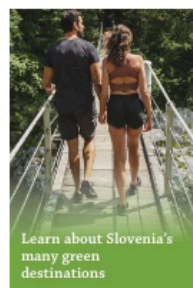

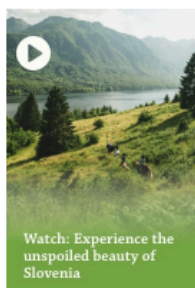

#ifeelsLOVEnia
#myway

Go green. Explore Slovenia.

With almost 30 miles of coastline, snowy peaks, waterfalls, pristine lakes, dramatic landscapes and forests covering almost 60% of the country, Slovenia's natural beauty is abundant. And it safeguards its beauty, leading the way in sustainability. In fact, Slovenia is the first nation to receive the Global Green Destination title for its stewardship of natural resources.

Slovenian green destinations can be found in cities, the countryside, parks, spas and accommodations. With plans to hit 100% sustainability, this green and clean nation is a top destination for anyone interested in responsible tourism.
