

EXPRESS YOUR SELFIE!

Singer Nina Nesbitt tells us about hanging with pop royalty and meeting her fella online...

Having already had a hit with *Selfies*, Scottish singer Nina Nesbitt is pretty much the ideal person to grill about her social media habits.

And luckily for us, the 23-year-old star has some amazing selfies online, including snaps with Justin Bieber and this one, that shows her with Taylor Swift.

Taking a break from preparing for the release of her next single and a US tour alongside Jake Bugg, Nina gives us her tips for nailing the perfect selfie, reveals her karaoke sessions with Justin and tells us about meeting her boyfriend on Twitter...

Hi Nina! How did you manage to score a selfie with Taylor Swift?
I met her at the Universal Brits after-party a few years back and it was really cool because she's an artist I've been listening to since I was about 15! I've always

supported her music and she's been really supportive of me. She added me to her favourite songs playlist on Apple Music. It was really exciting for me after having listened to her since I was a kid.

Have you ever partied with an A-lister?

I went on a random karaoke night with Justin Bieber when we were both in Hong Kong and we got a selfie. I have no idea how it happened! We didn't do a song together, but he was singing all night. I sang *Unfaithful* by Rihanna – and it was terrible.

Truth time. How many selfies do you take to get a good one?

About 500 – but you can never take too many selfies! I love playing about with filters. I'm very into a bit of grain right now and I like things to look warm.

We're all guilty of posting a pic we later regret, though...

Definitely! Sometimes when it's really bright outside I'll take a

photo and post it and then I look back when I'm in the shade and I'm like, "Oh my God, that's horrendous. Why did I post that?" But I think it's a good way to document things.

How much time do you spend on social media?

Too much! Instagram is good for a bit of everything – seeing what your friends are up to, style inspiration... and I love the make-up stuff that comes up on the Explore page. Twitter is where I go to find out what's happening in the

world. I'm on social media all the time.

Would you date someone who slid into your DMs?

I did, actually – my boyfriend now! He added me on Twitter, sent me a DM and we went on a date. We kind of knew of each other already and we've been together three and a half years now. I think if it was a cold-call that would be a bit strange!
