

Their uPVC sliding sash windows are designed to replicate authentic windows, providing slim sightlines, maximised glass panes and pleasing aesthetics. We would highly recommend this company, both for the quality of their products, and also the friendly professional staff. There are a range of pros and cons for both of these windows. Repairing a broken cord requires disassembling parts of the window frame. This is where we come to the distinct advantage of sash windows, the most efficient windows style, providing four times more ventilation than casement style windows. Many people find it hard to dress their [casement windows](#) appropriately, not wanting to obscure them whilst still needing the privacy that window dressings afford.

The occasional wipe with a wet cloth should be enough to clean up a dirty window frame and you don't need to concern yourself with repainting, varnishing, sanding or anything else like that. Where there is limited room for a deep window, Mock Sash Casements are a good alternative. From composite windows to beautiful conservatories, our friendly experts will take on any challenge, and you can count on us for free estimates. We have years of experience in assisting local homeowners with excellent products. Our windows are fabricated using the most innovative processes, making them robust and hard-wearing as well as ensuring that they offer superb performance. Floor-length curtains are probably some of the most versatile of window dressings for the [timber casement windows](#) in your home.

For other rooms, standard windows and trickle vents are used. To ensure the protection of yourself and your loved ones, our uPVC Sliding Sash Windows come complete with the most robust stainless steel locks. Compared with other windows, aluminium windows are highly energy efficient and insulating but many won't believe it. Most modern windows offer superb energy efficiency and could help save you money on your heating bills every month. Double Glazed Units, Glass & Mirrors can be supplied only or installed by our team. The process of draught proofing and refurbishment of a [sash windows](#) is now available for you to check out.

Very competitive prices though not the cheapest but decided to use this company as Alan was not at all pushy like other well known companies and was very knowledgeable on the products he was selling and what style would suit our property. When restoring your windows, we can fit draught seals, leading to virtual draught exclusion. This window has narrower double-glazing so that it is much harder to spot that it has two panes of glass. Just had a new front door fitted and all involved went over and above to complete a professional installation. Thanks to them, you can invest in something truly priceless. New [double glazed sash windows](#) work brilliantly in living rooms where darkness is not a priority, and allow for privacy whilst still letting in natural light.

There are many different factors to consider when deciding whether a conservatory. A very popular variation includes horizontally sliding sash windows, also known as Yorkshire sash windows or slider windows. The leaded windows look really good and very much in
