## GLOBE SERIES

## BUBBLE SHADE

The *Bubble Shade* is a pure, simple shape that is extremely hard to make. It is handcrafted by skilled New York artisans who work in a highly choreographed dance of mouth blowing and hand shaping to create a perfect shade. In fact, one in ten meets our standards.

SHOP

## GLOBE SERIES

## EGG SHADE

The *Egg Shade* has a poetically elongated shape. Both it and the *Bubble Shade* are offered in three glass tones (clear, nude and gradient), three sizes, and three fitters that the glass shade hangs from (pipe, chain or sock), which are hand made in a French workshop.

SHOP

## SEED

## PENDANT

The *Seed Pendant* lighting fixture features a handblown glass shade hanging from a cast bronze chain. A single piece of handblown gradient glass forms the oblong *Seed Shade*, which resembles the natural form of an elongated pod and culminates in a sprouting bronze cap.

## LUSTROUS

## LIGHT

## FORMED

## IN FIRE

Skilled artisans employ gravity to create a warm, milky gradient glass shade using our proprietary color formula. These handcrafted and handblown shades in full, satisfying shapes bring a welcoming, glowing comfort to a wide range of interiors.
