## Light Up Summer Nights

MAY 10, 2016

SHARE:

Summertime in Canada goes by way too quickly. But that doesn't mean we can't glam up our backyards to celebrate the good weather while it's here! Canadian Tire has released their summer 2016 collection, and we're loving their outdoor string lights.

All under \$90, the Canvas Montmartre Lights (pictured, \$90) are our personal fave; they offer that soft vintage look that would pair so nicely with some handmade cocktails in mason jars. There are also the Pineapple String Lights which are super cute without looking tacky or too colourful. Hang these in your backyard and you can pretend you're in Hawaii.

Raise your mason jars to lighting up those soon-to-come Canadian summer nights.— *Madison Arrotta*
