## THE BLACK WEDDING DRESS EDIT BY LOVE STORY LONDON

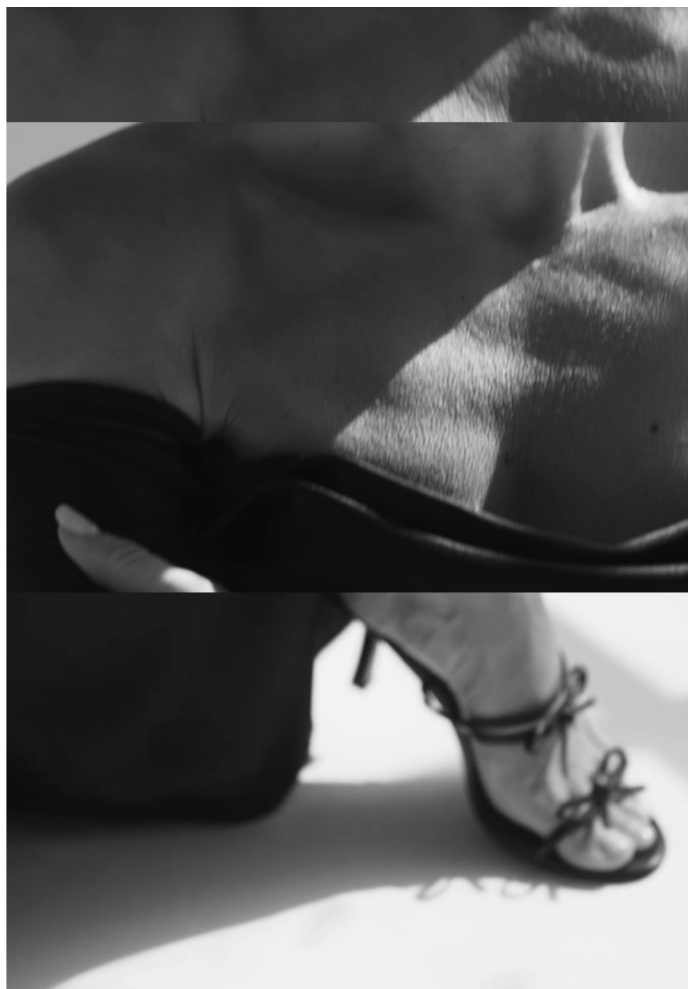

### TAKE IT BLACK

Introducing the Take It Black edit - a stunning collection of black wedding dresses that redefines bridal elegance.

Head designer Laura has mastered the art of creating head-turning, scene-stealing wedding gowns that truly celebrate the female form. And now, with the Take It Black edit, our black satin dresses are ready to take centre stage – whether that's on the red carpet, the runway or simply the dancefloor.

Each of the six looks in this limited-edition collection is handcrafted from sumptuous black satin – infusing the timeless bridal silhouettes with a sense of sultry, after-dark drama. So, next time a dress code calls for polished yet effortless decadence – rehearsal dinners, premieres, after-parties, cocktail hours – choose the black bridal couture edit, Take It Black.

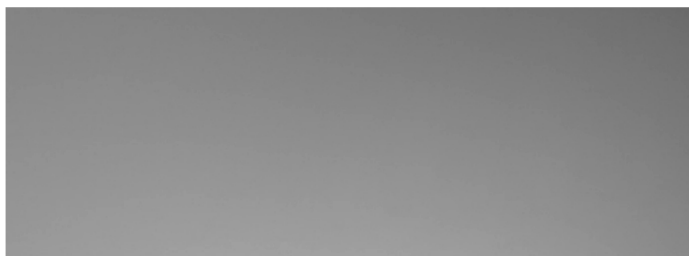

If you're working on any upcoming events, shoots or styling projects that you may like to use our designer black dresses for, please contact us.
