

**Manufacturing Radial Arm Saws and
Horizontal Beam Saws since 1990**

3700 Cross Cut Saw Series

Safely cross cut wood, wood products, composites, and plastics. The cutting is done inside a cutting box, where the sawdust is pulled into the machine and removed through a dust port on the back side.

Available in manual or semi-automatic models.

Wood Cutting Radial Saws

Capable of a variety of applications:

- Straight cuts
- Miter Cuts
- Compound miter cutting
- Beveling
- Dado cuts

Beam Saw Series

Cutoff lengths up to 64" long and 8" deep. Ideal for cutting wood, metal, aluminum, steel, and a variety of other materials.
