## Beamer template github

Subject Beam. Requirements You must also install Libertinus fonts. Refer to these instructions if you do not know how to install fonts on the system. This theme uses fontspec and is expected to click on slides using XeTeX. Install Clone this repository and move the .sty files and header.png to the \$TEXMFHOME/tex/latex directory by creating it if it does not exist. (Alternatively, you can leave the files where they are and create a symbolic link to that directory.). If you don't know where \$TEXMFHOME check your LaTeX distribution documentation or run kpsewhich -var-value TEXMFHOME in terminal. Use for basic use simply put \usetheme{qss} in the preamble. There are several new commands. \qsssectiontitle{} can be used to set the frame title for section structure pages. For example, you can install \qsssectiontitle{Outline}. In addition, colored text can be inserted using alertb{} ... \alerte{}. Examples can be .tex-demo. Theme Beam Page 2. Requirements You must also install Libertinus fonts. Refer to these instructions if you do not know how to install fonts on the system. This theme uses fontspec and is expected to click on slides using XeTeX. In addition, colored text can be inserted using alertb{} ... \alerte{}. Examples can be .tex-demo. This is a latex presentation (beamer) theme for the Technical University of Ilmenau. The background image from the TUIlmenau template is from the Morxtoffenics Institute. Using \input{style/template.tex} \usepackage{style/tuilmenau} % for TUIlmenau coporate design %\usepackage{style/clear} % there are different files for clear folder style design. General options are implemented in style/template.tex. You can use \usepackage{style/tuilmenau} to get the corporate design of TU Ilmenau. Package \usepackage{style/clear} - includes my simple design. You can copy one of these files to create your own theme! important: you need to change the package name at the top of the file: \ProvidesPackage{tuilmenau} additional commands add a link to the lower left corner of \addcite{reference\_name, ...} Enable double-view mode, created PDF has double width, right - for notes to use custom PDF viewer to display this PDF with notes adds reference frames of argument 1: frame name argument 2: bibtex style or path to bibtex style (e.g. deIEEEtran, IEEEbib -&gt; both styles are included in this repository) \insertReferenceFrame{Link}{IEEEbib} {MyReferences.bib} pdf viewer dspdvviewer pdf-speaker console double monitor PDF viewer The browser includes the following line for using embedding video in a presentation \usepackage{style/pdfpc-commands} for more information on Page 2 This is a latex presentation theme (beamer) for the Technical University of Ilmenau. The background image from the TUIlmenau template is from the Morxtoffenics Institute. Using \input{style/template.tex} \usepackage{style/tuilmenau} % for TUIlmenau coporate design %\usepackage{style/clear} % there are different files for clear folder style design. General options are implemented in style/template.tex. You can use \usepackage{style/tuilmenau} to get the corporate design of TU Ilmenau. Package \usepackage{style/clear} - includes my simple design. You can copy one of these files to create your own theme! important: you need to change the package name at the top of the file: \ProvidesPackage{tuilmenau} additional commands add a link to the bottom left corner \addcite{reference\_name, reference\_name2, ...} enable double-view mode the created PDF has a double width, correct for notes you need to use to display this PDF viewer, to show these pdf files with notes, add reference frame argument 1: frame name argument 2: bibtex style or path to bibtex style (e.g. deIEEEtran, IEEEbib -&gt; both styles included in this repository) \insertReferenceFrame{References}{IEEEbib}{MyReferences.bib} PDF viewer dspdvviewer pdf-presenter console dual monitor PDF viewer include the following line for using em video in presentation \usepackage{style/pdfpc-commands} more information about from Simon Byrne (based on the original Maurizio Filippone template) These files form a theme for beamer package in LaTeX, which is a close approximation to UCL's corporate identity. Installation To use once, simply put the files in the directory of your document. A more permanent solution is to place files somewhere in your texmf tree. To find out where it is on your system, run: kpsewhich -var-value TEXMFHOME The appropriate location will be &lt;:texmf&gt;/tex/latex/uclbeamer Using the theme and its many options are listed in the sample file.tex. It can also be used to build a poster: a rough realisation is given in the sample poster.tex however there are still some interval issues to be sorted out. Notes Default package uses Helvetica font because Arial (official UCL font) installed on most TeX distributions. If you really want Arial, then you should be able to get it working using &lt;:texmf&gt; &lt;:texmf&gt; Steps: updmap-sys -enable Map=ua1.map Add the following lines to the document preamble: \usepackage[T1]{fontenc} \usepackage{uaria1} \renewcommand{\familydefault}{\sfdefault} how to roll them apart, the only difference appears to be that Arial has no hit on G. Support requires a fairly modern TeX installation (it was only tested on MacTeX 2012). If you're having problems, try the update. It is completely unofficial, and is not supported by UCL. If you notice any errors, however, please open the problem, or better yet, send a request to the pool. Hit Below is a table of custom Beamer themes originally taken from latex.simon04.net, now expanded to include a few more themes. Want to add yours? Super! Send PR with your link added to the bottom of the table, or email me (see my GitHub profile) and I'll do it for you. Theme Preview Notes beamer-progressbar PDF Sylvain Beverett has built an alternative beam theme called progressbar, for more information, see his website. More of his themes in this repo. CEA PDF Unofficial CEA theme for latex rays made by Fabrice Gadaud. Diepen style Screenshot For those like airplanes (or any other background image I think) TU/e PDFScreen PDF This message is from January 31, 2008. Threads IAS Screenshot Created by Frans Olehek. KDE Oxygen-style PDF Two beautiful KDE themes exist, one called Oxygen, the other is Air. Screenshot from Stockton from the University of the Pacific. Torino Screenshot A fresh theme called Torino, taken by Marco Barisione. UA Screenshot LaTeX beam theme for the University of Antwerp. UniversiteitGent Screenshot This is the LaTeX beam theme for the University of Ghent based on the UA theme. UNL PDF Chris Bourke made a good theme for the University of Nebraska-Lincoln. The theme of the Macocall-ALUF PDF Okal Billy was used at the University of Freiburg. The Macocall-JUB PDF Okal Billy theme was used at Jacobs University. Kyoto PDF Debian theme for latex beam, originally KansaiDebianMeeting OpenOffice Impress theme created by Jun NOGATA. Lleida Screenshot Theme created by Paulo Jorge Matos. Sybila PDF Theme created by Sybila. Bunsen PDF Template XeTeX Beamer by Set Brown. See the related blog here bunsen-web LSE PDF An unofficial LaTeX Beamer theme for Christopher Gundrud's London School of Economics. ZBH Screenshot Beamer unofficial theme for ZBH Hamburg University. TU-BS PDF Theme beamer corresponding to the corporate design of TU Braunschweig. Carlosvit-beam slideshow Screenshot Karl compatible beamer slide theme. Intridge Screenshot Beam Theme for Intridge. HongKong PDF Beamer unofficial theme for Hong Kong Polytechnic University. Keynote-esque PDF Theme that mimics Apple Keynote presentations. Muted screenshot Of Muted, Stylish Beam Pattern by Cameron Bracken Screenshot Minimalist beam theme based on Martin Bjeldbak's muted Madsen HSRM PDF Theme, which matches the corporate design of RheinMain by Benjamin Weiss University of Applied Sciences. GC3 PDF Theme, which is based on recommendations from the University of Zurich corporate profile Ricardó Murry. BeamerPorts Various on the Márton Marczell Project page tries to transfer popular PowerPoint themes to beamer HSMA Screenshot Theme corresponding to corporate design hochschule Mannheim - University of Applied Science, Germany Steve Gegenbart.
