

THE MOST COMPREHENSIVE WAY TO CLEAN DRAINS, FROM START TO FINISH.

From industry-leading inspection tools to customer service technology, take advantage of the complete line of drain and cleaning equipment. It's the best way to get the job done quickly and effectively.

SeeSnake® Inspection Equipment

Investigate farther, faster, better.

The extensive range of RIDGID SeeSnake® and handheld inspection cameras, push cables, reels and video monitors offers durability and ease-of-use to identify problems quickly.

RIDGID Locating Equipment

Get to the root of the issue.

A full line of rugged RIDGID locators and transmitters is available to meet your needs for fast and accurate locating of buried utilities, including electric, water, gas, oil, telecom, cable and sewer. These tools are an ideal complement to RIDGID video pipe inspection and drain cleaning equipment.

RIDGID Drain Cleaning Equipment

The right equipment for any job, anywhere.

No matter what you need in a drain cleaning machine, there is a RIDGID product just right for you. From sink machines to drum, sectional, rodder and water jet machines, you can depend on RIDGID to have the right tool and accessories to meet your exact needs.
