

EZ Connector System

Patent Pending and Patent Nos
5,342,100; 6,810,570; and 8,172,280

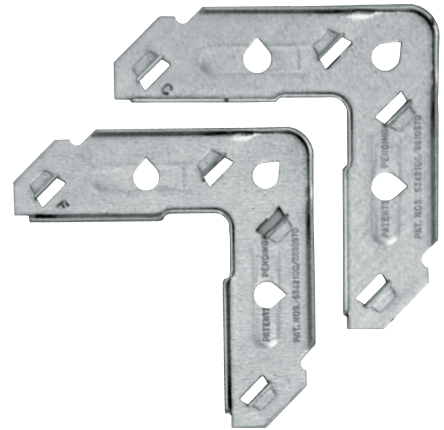

EZ Connector® is a revolutionary duct connection system that can save up to 50%+ labor costs in the field! This innovative system is the first and only corner system on the market that allows the contractor to fasten a patented locking bolt using a cordless impact driver.

EZ Connector TDC® / TDF® Corners

These precision engineered and stamped TDC and TDF corners can be used in automated corner crimping machines with traditional Cornermatic® Classic, Cornermatic® Combo, and the revolutionary Cornermatic® Plus™.

- EZ Corners feature a patented “teardrop” shaped hole that locks the bolt in place eliminating the need for a nut
- Saves 50% labor in the field
- Also appropriate for manual insertion

Item #	Code	Description	Qty/Box
13078	EZCS	Stackable TDC® EZ® Corner	250
13079	EZFS	Stackable TDF® EZ® Corner	250

EZ Connector Bolts

This patented bolt is specifically designed for use with EZ TDC/TDF corners. It acts as an alignment tool and a locking nut during installation when used with the teardrop EZ Corner.

- Replaces 3/8” carriage bolt, washer and nut at the four corner connections
- Washer built into “extra high” EZ drive head
- Eliminates use of drift-pin and clamps for corner alignment
- Spin-out feature prevents over-torquing and reduces damage to gaskets (leakage at corner reduced)
- 1-1/2” long version available for larger ductwork, heavier gauge, unique location, special fitting applications
- 1” bolts available for faster assembly of smaller ductwork

Item #	Code	Description	Qty/Box
13070	EZB100B	EZ® Bolt 1 in Only Bulk	1000
13071	EZB100	EZ® Bolt 1 in Only Bagged	125
13073	EZB112B	EZ® Bolt 1-1/2 in Only Bulk	500
13074	EZB112	EZ® Bolt 1-1/2 in Only Bagged	125
