

Product

HM-PAN

Purpose

The Asurity™ Humidifier Drain Pan (HM-PAN) provides peace of mind to homeowners that their humidifier will not cause a flood. The pan is designed to catch any water that leaks from the humidifier and contain it. The included float switch is designed to shut down power to the humidifier (24VAC; 1.5A MAX). HM-PAN can be installed on sheet rock or on an air handler using included hardware.

Features

- CS-3 Condensate Safety Overflow Switch Included for Extra Protection
- Simple installation
- Robust, single piece design

Included Items

- Humidifier Drain Pan
- CS-3 Float Switch
- Rubber Boot
- (3) Sheet Metal Screws (for Air Handler Mounting)
- (3) Toggle Bolts (for Wall Mounting)
- Foil Tape

Tools & Supplies Required for Installation

- Philips Head Screwdriver
- Laser or Bubble Level
- Drill with 1/8" Bit
- Wire Nuts
